

COMPONENTS CLEANING VADEMECUM

BRASS

ORDINARY BRASS: cleaning with CREMA-X
Burnishing process reversible provided that it is
cleaned frequently.

**NICKEL PLATED BRASS
(SILVER EFFECT):**
cleaning with CREMA-X or PASTA-X
with scotch brite sponge.
Burnishing process irreversible
but can be reduced with frequent
cleaning.

PYRAL (ALUMINIUM ALLOY)

	Burners	All	PASTA-X
---	---------	-----	---------

POLISHED STAINLESS STEEL

	<p>Polished steel grills</p>	<p>Hobs</p>	<p>CREMA-X PASTA-X</p>
	<p>Steel caps</p>	<p>Hobs</p>	<p>CREMA-X PASTA-X</p>
	<p>Top</p>	<p>Hobs</p>	<p>PASTA-X <u>Better than CREMA-X because it maintains uniform polishing during cleaning.</u></p>

POLISHED STAINLESS STEEL

	<p>Oven compartment</p>	<p>RP Oven</p>	<p>PASTA-X to revive steel</p> <p>PULIFORNO for carbonized fat stains</p>
	<p>RP Finish</p>	<p>RP Oven</p>	<p>INOX SPLEND for fingerprints and haloes</p> <p>PASTA-X for stains or yellowing due to use</p>
	<p>Dishwasher tub</p>	<p>All models</p>	<p>DUST-WASH</p> <p>1 spoon in the dispenser with 60°C programme</p>

SATIN STAINLESS STEEL

	<p>Hob tops</p>	<p>All satin stainless steel</p>	<p>PASTA-X Rub vigorously in the satin finish direction WARNING! Do not pass on painted silkscreens!!!</p>
	<p>LQ Sinks</p>	<p>All satin stainless steel</p>	<p>PASTA-X possibly in the satin finish direction</p>
	<p>VQ Sinks</p>	<p>All satin stainless steel</p>	<p>PASTA-X possibly in the satin finish direction</p>

FINGERPRINT RESISTANT STEEL

	<p>Refrigerator doors</p>	<p>Models with FINGERPRINT RESISTANT STAINLESS STEEL finish</p>	<p><u>EXCLUSIVELY</u> INOX SPLEND with MICROFIBER CLOTH</p>
	<p>Dishwasher finish Freestanding</p>	<p>FINGERPRINT RESISTANT STAINLESS STEEL models</p>	<p><u>EXCLUSIVELY</u> INOX SPLEND with MICROFIBER CLOTH</p>
	<p>Oven finish</p>	<p>FINGERPRINT RESISTANT STAINLESS STEEL models</p>	<p><u>EXCLUSIVELY</u> INOX SPLEND with MICROFIBER CLOTH</p>

SCRATCH RESISTANT STEEL

 A stainless steel cooktop with four burners and a control panel on the right side.	Top	All models with SCARTCH RESISTANT STAINLESS STEEL	CREMA-X Rub vigorously WARNING! Do not pass on painted silkscreens!!!
 A stainless steel double-basin sink with a faucet and a draining board on the right side.	Sinks	All models with SCARTCH RESISTANT STAINLESS STEEL	CREMA-X Rub vigorously

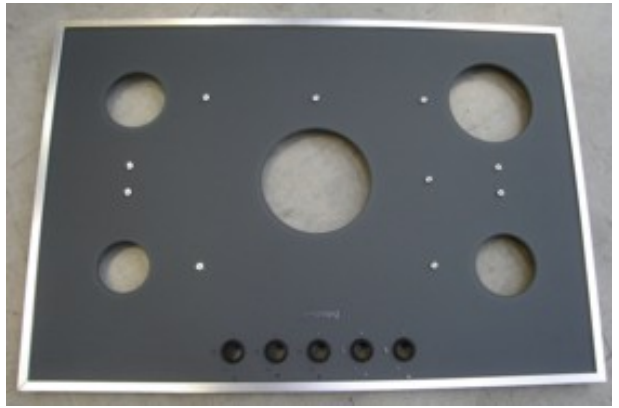

MIRROR GLASS AND STOPSOL

	<p>Mirror glass top</p>	<p>PTV models range</p>	<p>PULICERAM and CLOTH-VTR (absolutely avoid products containing chlorine)</p>
	<p>STOPSOL glass top</p>	<p>PVS750</p>	<p>PULICERAM and CLOTH-VTR</p>

FROSTED GLASS

	Frosted glass top	Marc Newson	CREMA-X Apply pure directly on the top and rub vigorously with kitchen paper or scotch brite sponge
	Frosted glass top	Marc Newson	CREMA-X Apply pure directly on the top and rub vigorously with kitchen paper or scotch brite sponge

FROSTED GLASS

	Frosted glass top	PVA models range	CREMA-X Apply pure directly on the top and rub vigorously with kitchen paper or scotch brite sponge
---	-------------------	------------------	--

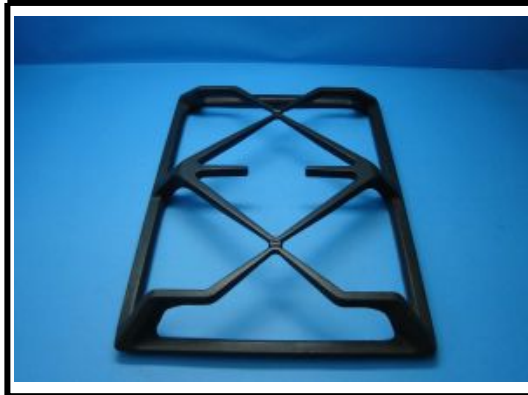

FROSTED GLASS

	<p>Components used for cleaning</p>	<p>CREMA-X SCOTCH BRITE KITCHEN PAPER</p>
		<p>Use the sponge on the SCOTCH BRITE side</p>
		<p>Pour CREMA-X pure directly on the glass and rub with KITCHEN PAPER. For stubborn stains SCOTCH BRITE</p>

ORDINARY GLASS

	Internal glass	All Pyro models	CREMA-X PULIFORNO with microfibre cloth
	Internal glass	All multi-function models	PULIFORNO with microfibre cloth

CAST IRON

Grill

Stoves and special
hobs

Brass brush and
paper cloth with a
drop of oil for finishing

VARIOUS

 A photograph showing the interior of an oven muffle, which is a dark, empty metal cavity with a glass door at the top.	Muffle	Ovens with enamelled muffle	PULIFORNO + VAPORCLEAN CREMA-X diluted in case of stubborn and neglected dirt
 A photograph of the exterior of an oven with a dark brown, metallic Auburn finish. It features a circular glass door and control knobs on top.	Auburn	Oven finish	MICROFIBRE CLOTH NO CHLORINE-BASED PRODUCTS

 A photograph showing a person's hands holding a stainless steel washing machine drum. The drum is perforated and is being held above a white plastic base, which is the detergent compartment of the machine.	<p>Washing machine drum</p>	<p>All models</p>	<p>DUST-WASH 2 spoons in the detergent compartment washing at 60°C</p>
--	-----------------------------	-------------------	--

VARIOUS

	<p>Dishwashers / washing machines</p> <p>Degreasing and disincrusting</p>	<p>DEKAL start a programme between 50°-60°</p> <p>wait about 15 minutes and pour the whole content in the drum with empty appliance.</p>
	<p>Coffee machine</p>	<p>NOKALK follow the instructions inside the coffee machine.</p>
	<p>Microwave ovens</p>	<p>PULIMICRO spray the product into the oven avoiding holes and lamps inside, remove with clean dry cloth or paper .</p>

	Mixer taps	All stainless steel models	INOX SPLEND
