Drum has maximum capacity of 8kg of dry laundry.

Load capacity 9Kg:

Drum has maximum capacity of 9kg of dry laundry.

Load capacity 11Kg:

Drum has maximum capacity of 11kg of dry laundry.

FlexiTime:

The FlexiTime option allows the user to reduce the time of the cycle selected, providing extra flexibility and control.

Super fast 15 min:

a programme designed to wash small amounts of laundry fast, ideal for washing lightly soiled garments.

Cleaning programme:

A cleaning programme has been created to maintain the performance of washer/dryers. The display shows automatically when cleaning is required.

Load capacity 7Kg:

Drum has maximum capacity of 7kg of dry laundry.

Delay timer:

can be set to run the programme at a convenient time or to take advantage of off-peak energy periods.

Shirts:

a cycle to wash shirts in a short time with the utmost care, using a delicate spin for easy ironing.

Hand wash:

this specific programme for delicate fabrics uses slower rotations of the drum to ensure the utmost care for clothing.

Easy Iron:

this is an option which can be selected to ensure the finished laundry is left with less creases to make ironing easier.

Night:

an ideal programme for those who want to take advantage of off-peak energy periods, this cycle is particularly quiet due to slower rotations of the drum.

Jeans:

a washing cycle which is kind to the colour and fabric of denim whilst minimising wrinkles.

**Extra rinse:**

The Extra rinse option: can be added to the selected programme when more thorough cleansing of special fabrics is needed.

**LCD display:**

to show programmes, functions and options selected and the time to the end of the cycle.

**Total acquastop:**

the product is built with 3 levels of anti-flood devices to ensure protection against water leakage.

**Gym:**

a cycle designed for washing lightly soiled garments, ie sports wear, this is a fast wash which is also kind to fabrics.

**Mixed fabrics:**

this cycle is designed for lightly soiled laundry in a mix of cottons and synthetics, or can be used just to refresh stored items.

**Wool:**

this programme for wool or delicate fabrics uses slower rotations of the drum to ensure the utmost care for clothing.

**Pre-wash:**

Prewash adds a stage before the main wash, useful for washing heavily soiled garments

**Intensive:**

During this cycle the maximum temperature reaches 60°C in the extended washing stage, providing an intensive clean.
