

COOKER HOODS

FINGER FRIENDLY ST/ STEEL

The surfaces are treated with a finger friendly coating, or have a finish to protect against finger prints making them easy to stay clean.

DUCTED OR RECIRCULATED *

Most Smeg hoods come with the option to duct out, or to recirculate. This provides complete flexibility for installation.

PRECISE CONTROL

Smeg hoods are designed for quick and simple operation. You can regulate extraction speed and lighting to perfection.

WARNING INDICATORS *

Lights ensure that the filters are changed at the optimum time keeping the hood efficient and safe.

INSTALLATION OPTIONS

A wide range of installation options are available in the Smeg cooker hood range. Wall mount, island, ceiling mount, fully integrated and downdraft.

DESIGN

Available in a large range of styles, from ultra-modern to classic styling. A blend of steel and glass options are available.

INTENSE / TURBO FUNCTION *

An intense setting for when extra fast extraction is required.

STAINLESS STEEL FILTERS *

Durable, dishwasher safe filters available on Smeg cooker hoods.

ELEGANT AND EFFICIENT LED LIGHTING

Beautifully positioned LED lights perfectly illuminate the kitchen as well as being extremely long lasting and efficient. Some cooker hoods have dimmer switches to create the perfect ambience.

AUTO SWITCH OFF *

A special setting switches off the extractor and lights after a predefined time.
