ANNA JONES

# ECF01 Coffee Machine

The Smeg espresso machine offers a beautiful sleek and slimline design, to compliment either the modern or traditional kitchen. It uses freshly ground coffee, bringing out the inner barista in you! Preparing the coffee at the perfect temperature, pressure and contact time you can be rest assured that it will deliver the perfect cup of coffee.

Coffee is produced at 98°C, however this temp can be altered to create a bespoke coffee drink

Simple to use backlit control panel, with options to select espresso, double espresso and milk frothing to give you ultimate choice.

15 Bar thermoblock heating system ensures quick 35 second heat up time, and speedy exchange from coffee to milk frothing

Automatic shut off function after 9min, 30min or 3hrs to suit your lifestyle.

Removable waste collection and cup tray is easily cleaned. Also useful for accommodating larger cups.

Passive cup warmer, perfect for espresso cup storage.

Programmable coffee quantity to suit every taste and cup size.

Control lever situated on the top of the body with a centrally positioned opening button, allowing easy operation from any position for milk frothing.

Three filters supplied for single and double espressos, and the use of paper pods.

Adjustable milk frother wand creates a rich, thick and long lasting foam, perfect for the preparation of a cappuccino, latte, latte macchiato, hot chocolate or mocha.

Removable 1L water tank with wide opening for refilling and cleaning.

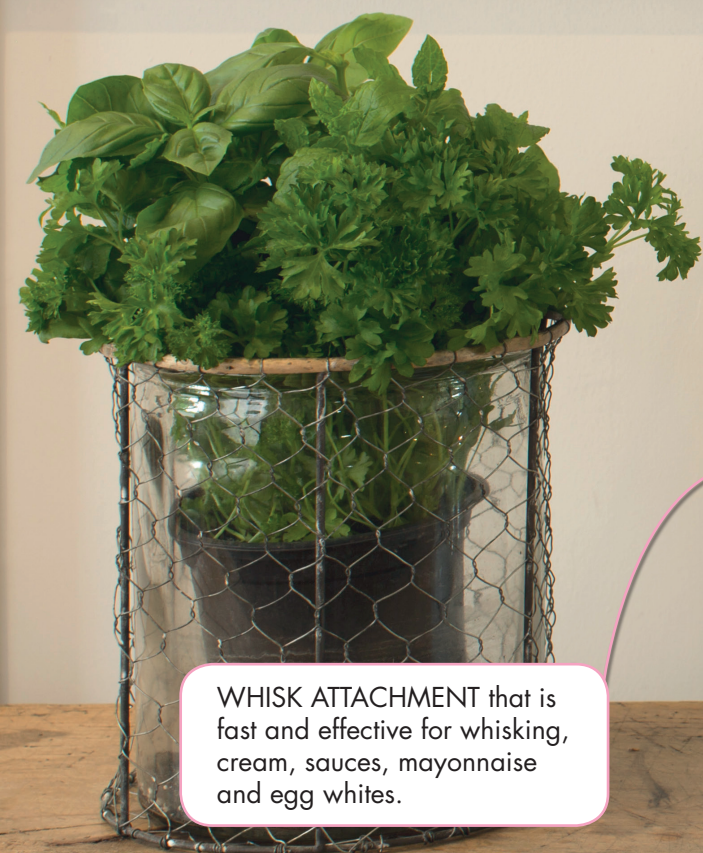

Descaling prompts to ensure correct maintenance and longevity of the machine.

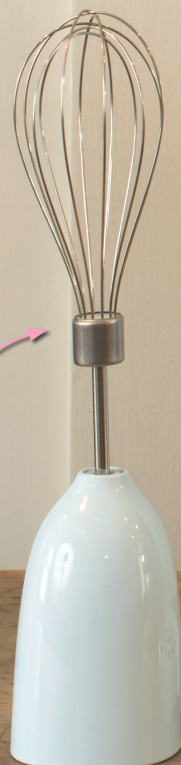

# HBF02 Hand Blender

The hand blender is an excellent partner in the kitchen, perfect for blending, chopping, whisking and mashing. HOW IT WORKS: simply twist the attachments on and off the main body of the hand blender to perform any desired kitchen task.

**WHISK ATTACHMENT** that is fast and effective for whisking, cream, sauces, mayonnaise and egg whites.

**ADJUSTABLE SPEED** for maximum versatility and great results.

**BLENDED ATTACHMENT** with stainless steel blade positioned at two heights with flowblend™ technology. This ensures the best performance and reduced suction whilst blending. Perfect for soups, sauces and milkshakes

**700W POWERFUL MOTOR** with Turbo function for optimum performance simply hold down the + button.

**ERGONOMIC ANTISLIP HANDLE** for exceptional comfort during use.

**BLENDED JUG** and lid, made of impact resistant Tritan™. The 1.7L capacity allows the blending and storage of large liquids.

**CHOPPING BOWL** with anti-slip base, that doubles as a storage lid. Excellent for chopping herbs, onions, creating breadcrumbs and crushing biscuits.
