

SWITCH OFF THE APPLIANCE FROM THE MAINS SUPPLY

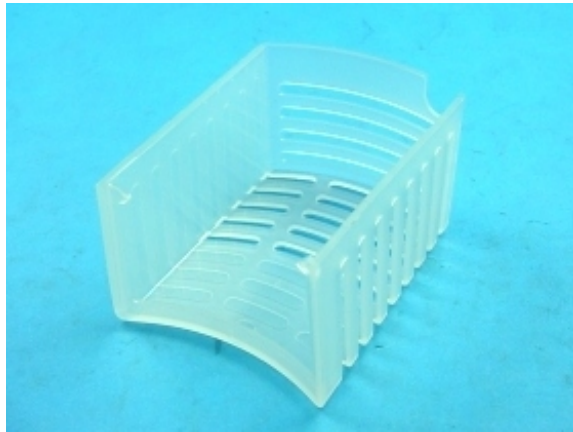

How to replace a bulb on a Smeg Fab fridge.

Apply a little pressure to the rear of the bulb cover to pop off the top clip, then slide the cover off the light assembly. The bulb is then unscrewed and replaced.

This is the bulb cover after removal, note the 2 clips on the right hand side, top and bottom. To replace this cover simply slide it into position and push the clips home.
